## 1 Download APP

1. Scan the QR code below to download Android and iOS software.

For iOS

Android-Google Play

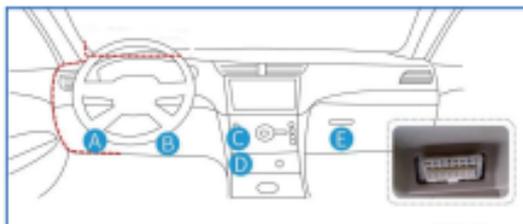

Android-website

2. iOS software can be downloaded from Appstore by searching for the "Autophix" keyword.

Android software can be downloaded from google play by searching for the "Autophix" keyword.

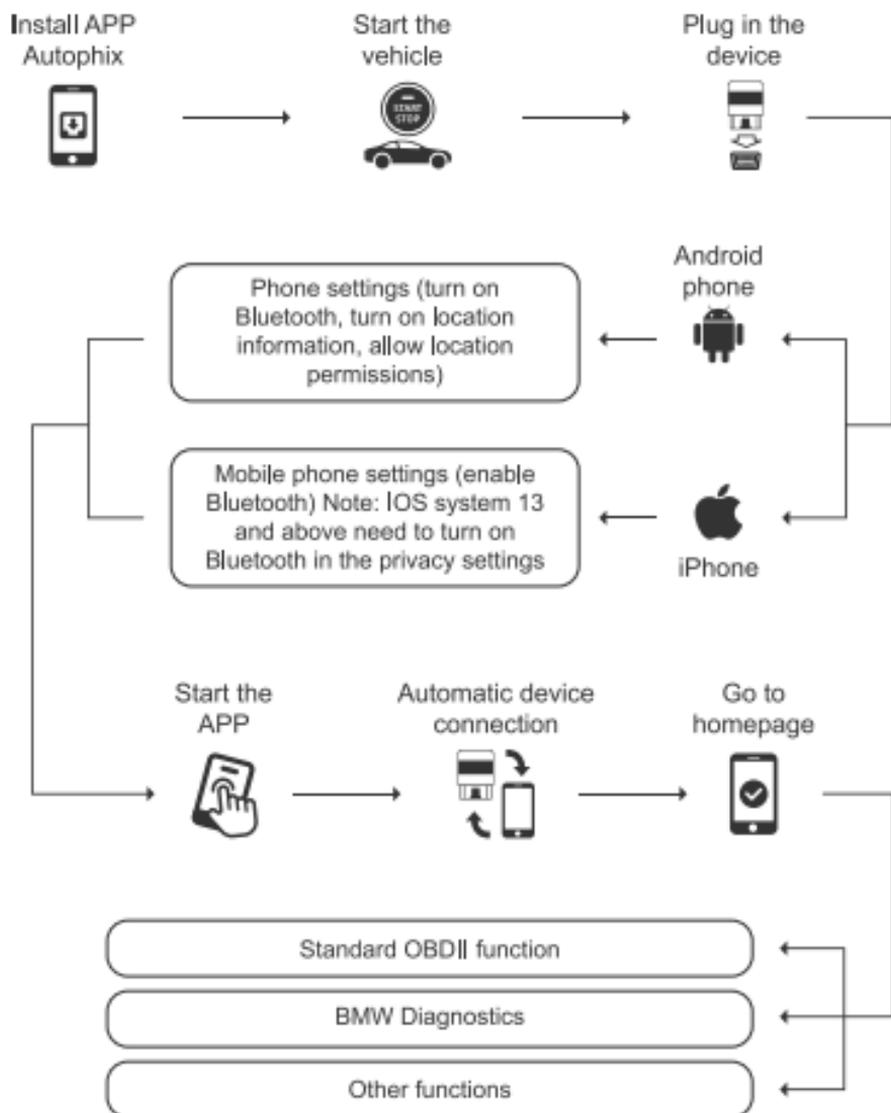

## 2 OBD interface location

On different vehicles the location of DLC may be different, please refer to the following possible locations:

## 3

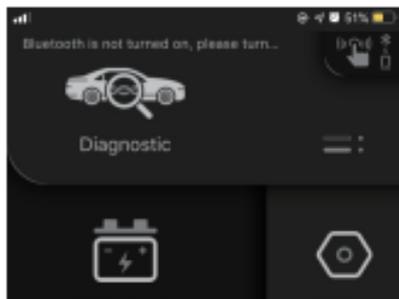

# Operation diagram

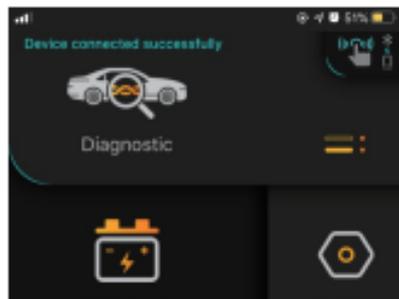

## 4 Bluetooth connection

Turn on Bluetooth -Start the app - Automatic device connection—Connected.

Picture 1 is not connected, picture 2 is connected.

Picture 1

Picture 2

## 5 Start to use your device

After the Bluetooth connection, the diagnostic software will be launched if your vehicle supports it. You can use all functions of the device, e.g. the standard OBDII function, BMW diagnostics and other functions.

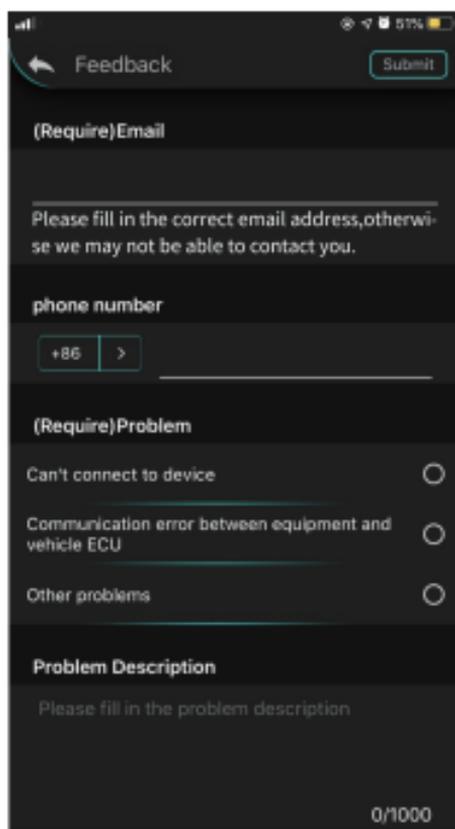

Standard  
OBDII function

BMW  
Diagnostics

Other  
functions

## 6 Feedback

You can send feedback to us if you encounter any problems during use, fill in the feedback content and submit.

The screenshot shows a mobile application interface for submitting feedback. At the top, there is a navigation bar with a back arrow, the title "Feedback", and a "Submit" button. Below the navigation bar, the form is divided into several sections:

- (Require)Email**: A section with a text input field and a placeholder message: "Please fill in the correct email address, otherwise we may not be able to contact you."
- phone number**: A section with a text input field containing "+86" and a right-pointing arrow, followed by a larger empty text input field.
- (Require)Problem**: A section with three radio button options:
  - Can't connect to device
  - Communication error between equipment and vehicle ECU
  - Other problems
- Problem Description**: A section with a text input field and a placeholder message: "Please fill in the problem description".

At the bottom right of the form, there is a character count "0/1000".

## 7

# Software upgrade and firmware upgrade

1. 3910-APP software upgrade :

Delete the APP program directly, and then download the latest software again.(View the latest software version: Open app--Setting--about us).

2. 3910-APP firmware upgrade:

2.1 Open app--Setting---Device settings---firmware upgrade--currently the latest version (no need to update).

2.2 Open app--Setting---Device settings---firmware upgrade--current version and prompt for the latest version--- Click the ' upgrade 'menu button-- Firmware upgrade is successful (Need to update).

### Product parameters

Working voltage: DC 8~18V

Working current: <24mA@DC12V

Bluetooth frequency: 2.4GHz

Bluetooth version: Bluetooth 5.0

Working temperature: -30°C~70°C (-22°F~158°F)

Storage temperature: -40°C~85°C (-40°F~185°F)

### Warranty

1) This warranty is limited to the person who purchases AUTOPHIX products.

2) AUTOPHIX product is warranted against defects in materials and workmanship for one year (12 months ) from date of delivery to the user.

## 1 Télécharger l'application

1. Scannez le code QR ci-dessous pour télécharger les logiciels Android et iOS.

For iOS

Android-Google Play

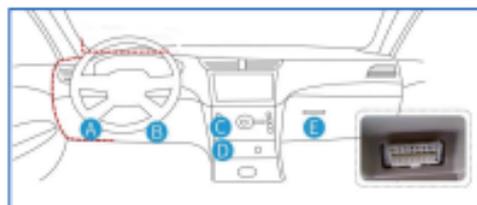

Android-website

2. Le logiciel iOS peut être téléchargé depuis Appstore en recherchant le mot-clé "Autophix".

Le logiciel Android peut être téléchargé à partir de Google Play en recherchant le mot-clé "Autophix".

## 2 Emplacement de l'interface OBD

Sur différents véhicules, l'emplacement du DLC peut être différent, veuillez vous référer aux emplacements possibles suivants :

**IC:29193-3210**  
**HVIN/Model:3910**

UK  
CA

MADE IN CHINA

## 4 Connexion Bluetooth

Activer Bluetooth -Démarrer l'application - Connexion automatique de l'appareil—Connecté.

L'image 1 n'est pas connectée, l'image 2 est connectée.

L'image 1

L'image 2

## 5 Commencez à utiliser votre appareil

Après la connexion Bluetooth, le logiciel de diagnostic sera lancé si votre véhicule le prend en charge. Vous pouvez utiliser toutes les fonctions de l'appareil, par ex. la fonction OBDII standard, BMW diagnostics et d'autres fonctions.

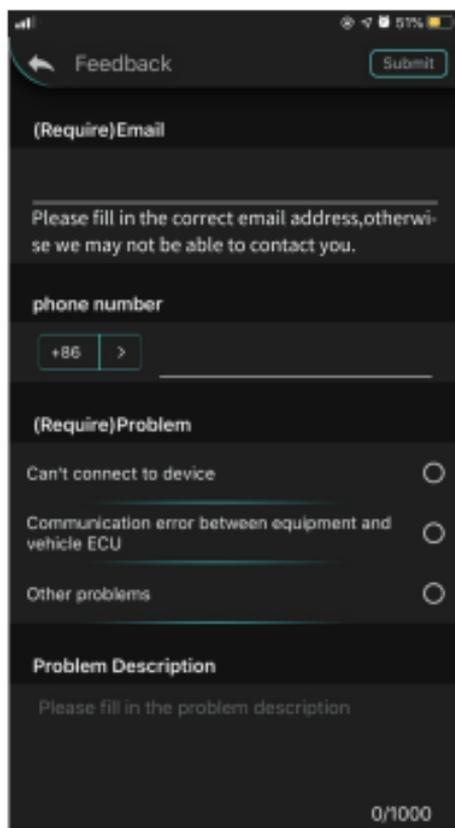

Fonction OBDII  
standard

BMW  
Diagnostics

Autres  
fonctions

## 6 Feedback

Vous pouvez nous envoyer des commentaires si vous rencontrez des problèmes lors de l'utilisation, remplir le contenu des commentaires et soumettre.

The screenshot shows a mobile application interface for a feedback form. At the top, there is a navigation bar with a back arrow, the title "Feedback", and a "Submit" button. The form is divided into several sections:

- (Require)Email**: A text input field with a placeholder "Please fill in the correct email address,otherwise we may not be able to contact you."
- phone number**: A text input field with a country code selector showing "+86" and a right-pointing arrow.
- (Require)Problem**: A list of radio button options:
  - Can't connect to device
  - Communication error between equipment and vehicle ECU
  - Other problems
- Problem Description**: A text input field with a placeholder "Please fill in the problem description".

At the bottom right of the form, there is a character count "0/1000".

## 7

# Mise à niveau du logiciel et mise à niveau du micrologiciel

1. Mise à niveau du logiciel 3910-APP :  
supprimez directement le programme APP, puis téléchargez à nouveau le dernier logiciel. (Afficher la dernière version du logiciel : ouvrir l'application -- Paramètres -- à propos de nous).
2. Mise à niveau du micrologiciel 3910-APP:
  - 2.1 Ouvrir l'application--Paramètres--Paramètres de l'appareil--mise à niveau du micrologiciel--actuellement la dernière version (pas besoin de mettre à jour).
  - 2.2 Ouvrir l'application--Paramètres--Paramètres de l'appareil--Mise à jour du micrologiciel--Version actuelle et inviter pour la dernière version--Cliquez sur le bouton de menu «Mise à niveau»-- La mise à niveau du micrologiciel est réussie(Besoin de mettre à jour).

## 1 Lade App herunter

1. Scannen Sie den untenstehenden QR-Code, um die Android- und iOS-Software herunterzuladen.

For iOS

Android-Google Play

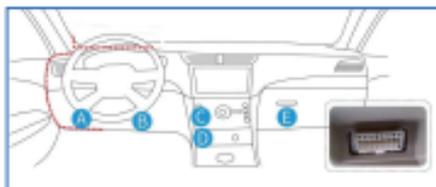

Android-website

2. iOS-Software kann aus dem Appstore heruntergeladen werden, indem Sie nach dem Schlüsselwort "Autophix" suchen. Android-Software kann von Google Play heruntergeladen werden, indem Sie nach dem Schlüsselwort "Autophix" suchen.

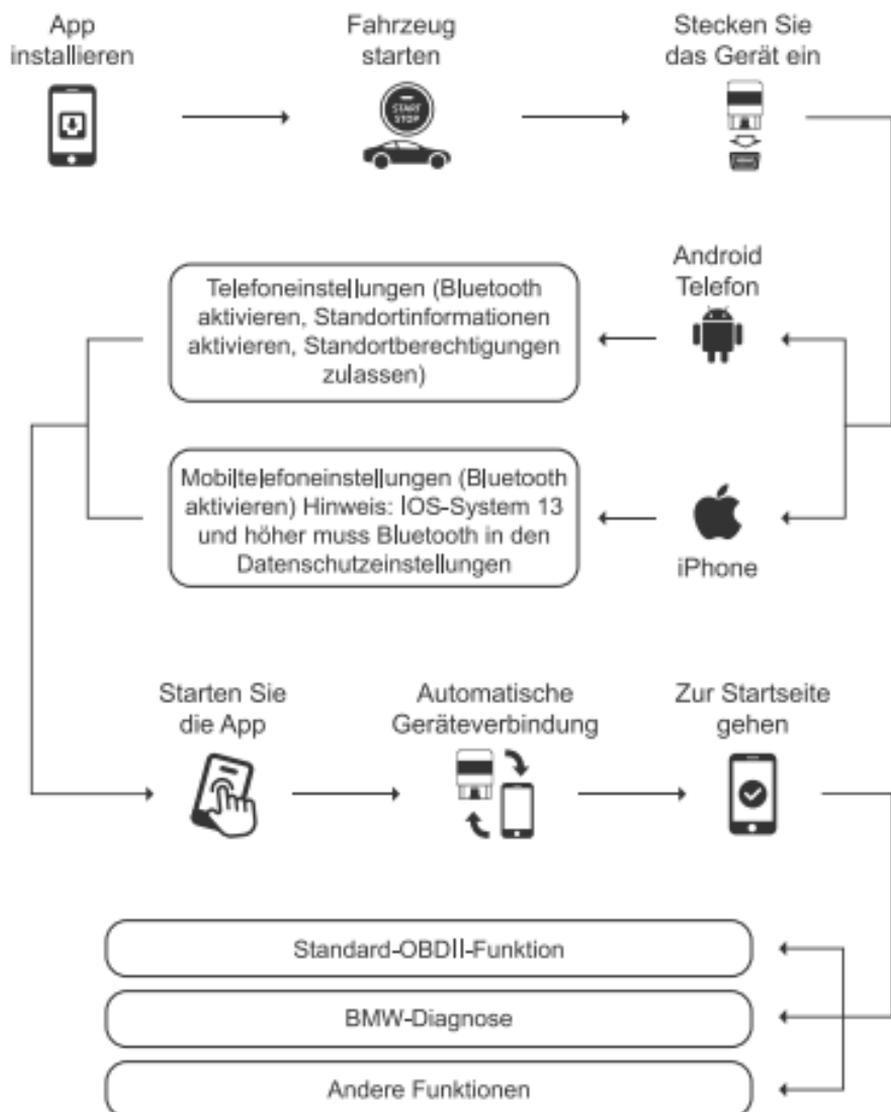

## 2 Position der OBD-Schnittstelle

Bei verschiedenen Fahrzeugen kann der Speicherort des DLC unterschiedlich sein, bitte beachten Sie die folgenden möglichen Speicherorte:

## 3

## Funktionsdiagramm

## 4 Bluetooth-Verbindung

Bluetooth einschalten – App starten – Automatische Geräteverbindung – Verbunden.

Bild 1 ist nicht verbunden, Bild 2 ist verbunden.

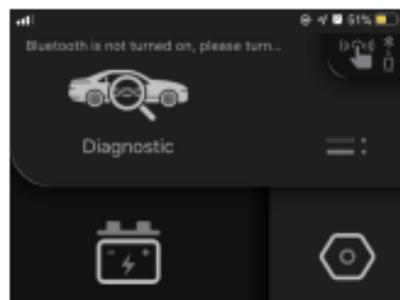

Bild 1

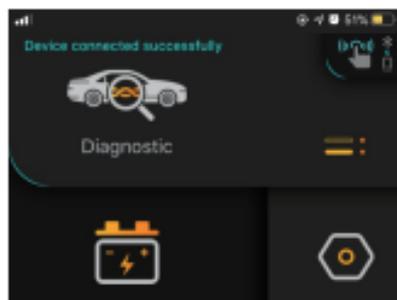

Bild 2

## 5 Beginnen Sie mit der Verwendung Ihres Geräts

Nach der Bluetooth-Verbindung wird die Diagnosesoftware gestartet, wenn Ihr Fahrzeug dies unterstützt. Sie können **alle** Funktionen des Geräts nutzen, z.B. die Standard-OBDII-Funktion, BMW-diagnose und andere funktionen.

## Software-Upgrade und Firmware-Upgrade

### 1. 3910-APP Software-Upgrade:

Löschen Sie das APP-Programm direkt und laden Sie dann die neueste Software erneut herunter. (Die neueste Softwareversion anzeigen: App öffnen--Einstellungen--über uns).

### 2. 3910-APP Firmware-Upgrade:

2.1 App öffnen--Einstellungen--Geräteeinstellungen--Firmware-Upgrade--aktuell die neueste Version (kein Update nötig).

2.2 App öffnen--Einstellungen--Geräteeinstellungen--Firmware-Upgrade--aktuelle Version und Aufforderung zur Eingabe der neuesten Version--Klicken Sie auf die Menüschaltfläche'Upgrade'--Firmware-Upgrade ist erfolgreich(Müssen aktualisiert werden).

## 1 Descargar aplicación

1. Escanee el código QR a continuación para descargar el software de Android e iOS.

For iOS

Android-Google Play

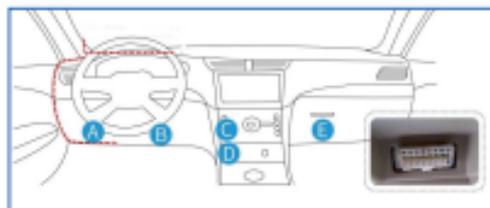

Android-website

2. El software iOS se puede descargar desde Appstore buscando la palabra clave "Autophix".

El software de Android se puede descargar de Google Play mediante la búsqueda de la palabra clave "Autophix".

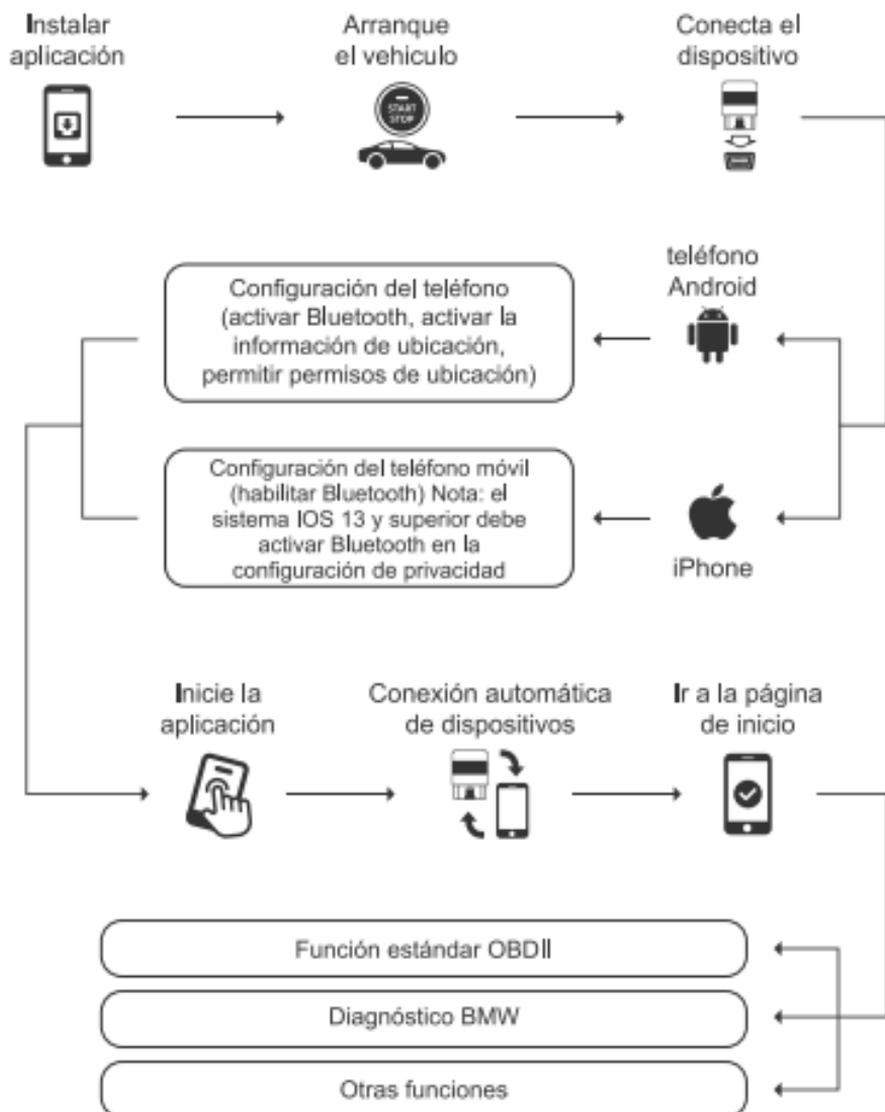

## 2 Ubicación de la interfaz OBD

En diferentes vehículos, la ubicación del DLC puede ser diferente, consulte las siguientes ubicaciones posibles:

## 3

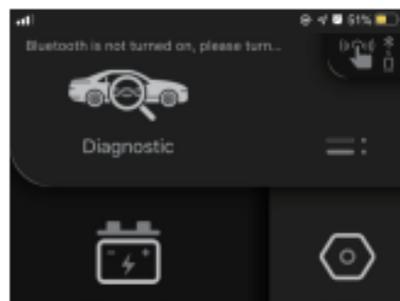

## Diagrama de funcionamiento

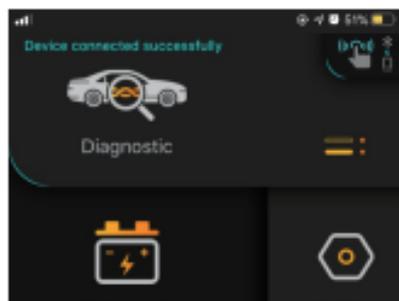

## 4 Conexión Bluetooth

Activar Bluetooth - Iniciar la aplicación - Conexión automática del dispositivo - Conectado.

La imagen 1 no está conectada, la imagen 2 está conectada.

La imagen 1

La imagen 2

## 5 Empiece a utilizar su dispositivo

Después de la conexión Bluetooth, se iniciará el software de diagnóstico si su vehículo lo admite. Puede utilizar todas las funciones del dispositivo, ej. la función OBDII estándar, diagnóstico BMW y otras funciones.

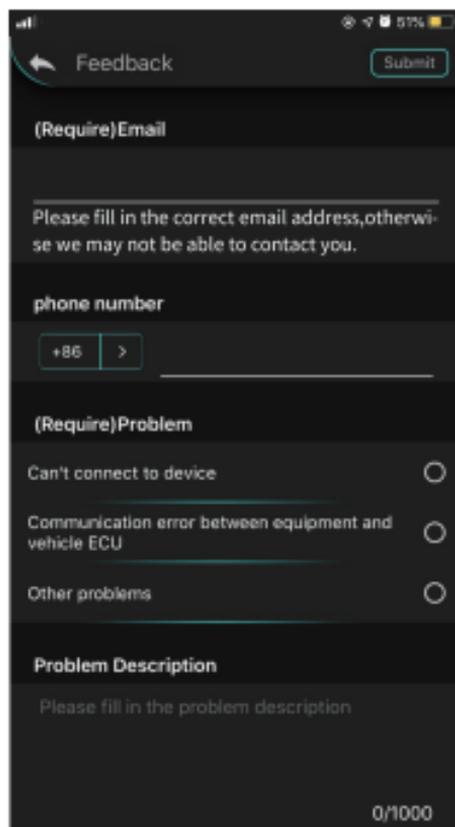

Función  
estándar  
OBDII

Diagnóstico  
BMW

Otras  
funciones

## 6 Realimentación

Puede enviarnos sus comentarios si tiene algún problema durante el uso, complete el contenido de los comentarios y envíelos.
