Make the Most Out of Your Kit

Innovate - - - - -

Take the Innovator's Oath

Take the innovator's oath mentioned on page 6 and understand what it means to be an innovator.

Learn using Manual/Videos

Follow detailed instructions in the manual and learn how to build exciting robots with your kit.

Build, Code & Control

Build innovative projects using your kit, and control the Robots using Avishkaar Remote and Code using Avishkaar Maker Studio.

Join Let's Avishkaar

Join our FB community - connect with innovators and get latest updates on webinars.

Upload Projects

Upload projects on www.avishkaar.cc and share them with innovators globally.

International Competitions

Participate in weekly, monthly and annual competitions and win glory globally.

Innovator's Oath

Take the Innovator's Oath below to pledge yourself to lifelong commitment towards Innovation and Problem Solving. Share a photo on the Let's Avishkaar FB Community.

I (write your name) _____

*solemnly swear that, since I am
now on the path of innovation,*

*I will not give up until my
innovation, my project is ready.*

*I will hone my skills and tools
and use them well. Innovation
and I will be inseparable.*

*I will always share my
innovations with other
innovators and learn with them.*

your Kit**

Welcome to Avishkaar

Download the Avishkaar App

Download the Avishkaar App by scanning the QR codes below:

① Create an Account

Open the app and follow the on-screen steps to make an account.

② Register your Kit

Go to the 'Profile' section in the app and click on '+ Add More' in the 'My Kits' section to register your kit. This step is important to control your robot later.

How to connect the motor to MEXcore

App Control

- 1 Insert the batteries in the MEXcore and turn it ON. You will notice the MEXcore LED blinking in green color.

Note - Use AA alkaline cells only. (Any other type of cells can damage the MEXcore.)

- 2 Turn ON the bluetooth on your phone.

- 3 Open the Avishkaar App and click on the 'Play' button inside the 'Home' section.

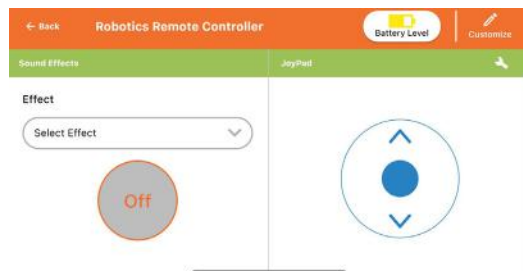

- 4 Click on 'Connect'. Your app should be able to find your MEXcore if it is turned ON. Click on 'Connect' once your app detects your MEXcore.

- 5 Click on 'Let's Play' and select 'MEX Robotics Starter kit' in the kit selection menu.

- 6 The remote control screen will open up which will allow you to control the LEDs motor and sound of your Tusker. Have fun!

Build Tip

Long Blue Pins have two different sides!

One side can enter two beams simultaneously while one side can only enter one. Be careful of which side needs to be inserted in any given step.

6

Build Tip

Short Yellow Pins can be a little delicate!

Be careful while using them. They break easily. And they can also be hard to remove - take the help of a parent or an adult to remove them safely.
