Magnetic Wireless Car Charger User Manual

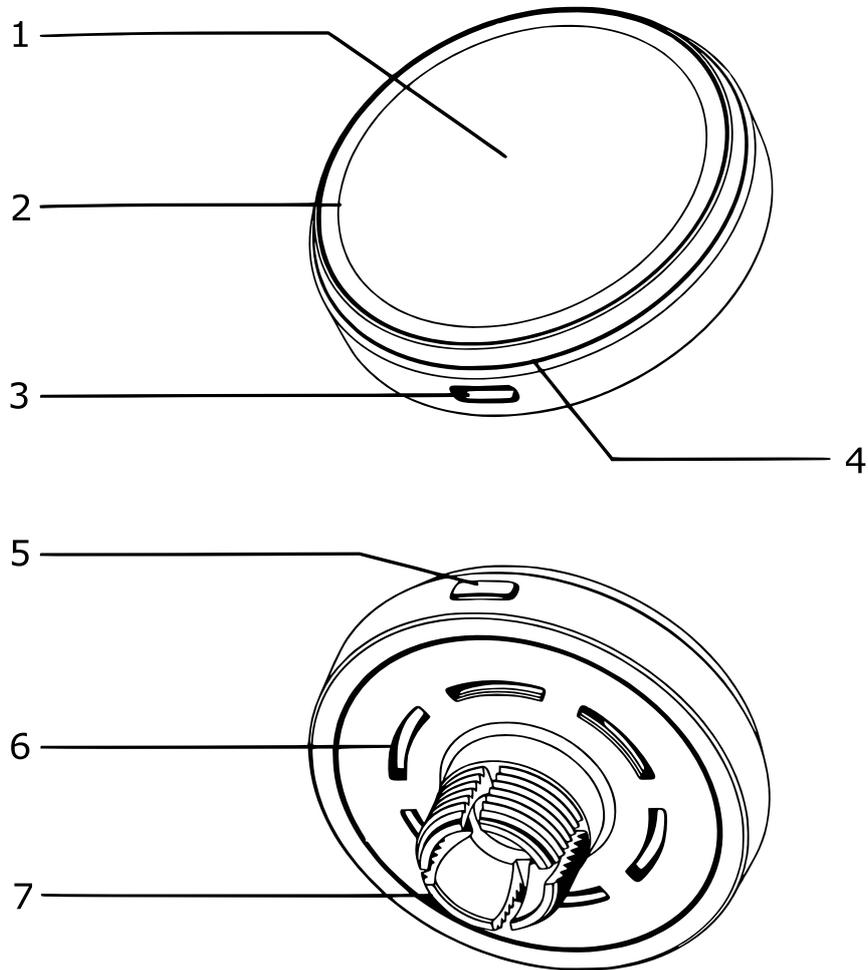

PES-051

CE FC ROHS 

Thank you for purchasing this product! This is a Magnetic Wireless Car Charger compatible with the Qi wireless charging protocol and MagSafe-compatible devices. It mounts on your car's air outlet and allows convenient hands-free charging while driving. We aim to provide you with a convenient, efficient, safe and enjoyable usage experience.

I. Functional Components

1. Wireless charging sensing area
2. Magnetic attraction area
3. TYPE-C input port
4. Edge light effect
5. Seven-color light control switch
6. Heat dissipation holes
7. Clamp steering ball assembly

II. Product Parameters

Product Name	Magnetic Wireless Car Charger
Model	PES-051
Weight	48.8 g
Material	PC + ABS + Tempered Glass
Input	5 V / 3 A or 9 V / 2 A
Output Power	15 W / 10 W / 7.5 W / 5 W
Charging Frequency	110 K–205 KHz
Charging Distance	0–6 mm
Product Size	61 × 61 × 31.8 mm
Interface	USB Type-C
Standard	Qi wireless charging protocol

III. Instructions for Use

1. Connect the USB end of the data cable to the rechargeable interface in your car (e.g. a cigarette lighter charger, a QC3.0-compatible car charger, or any standard car charger; note that chargers without fast-charging support may result in slow charging).
2. Clamp the device bracket onto the air outlet of the air conditioner or another suitable clamping location in the car.
3. Once powered on with 5–9V DC, the edge light turns on and the default colorful flashing light activates. Place your phone in the magnetic induction area: the device magnetically holds the phone, the work indicator turns green, and the breathing light turns on. After 3 minutes of charging, the light turns off to avoid distraction. When the phone is removed, the light returns to its previous state.
4. The product features FOD (Foreign Object Detection): if metal objects or similar items are detected, the light will flash red.
5. **Light control button:** Press to cycle through seven colors (red, orange, yellow, green, ice blue, blue, purple). Press and hold for 3 seconds to turn the lights off; lightly press again to turn them back on.
6. This device includes overvoltage protection, over-temperature protection, magnetic field protection, and short-circuit protection. It will automatically stop working if any abnormality is detected.

IV. Accessory List

- Magnetic Wireless Car Charger (vehicle mount) × 1

- Car air outlet base (clip) × 1
- Data cable × 1
- User Manual × 1
- Packaging box × 1

V. Compatible Devices

This charger supports magnetic attachment for: iPhone 15 Series, iPhone 14 Series, iPhone 13 Series, iPhone 12 Series.

Qi wireless charging is also supported for: iPhone XS Max, iPhone XR, iPhone X, iPhone 8, iPhone 8X; HUAWEI Mate 60, 50, 40, 30, 20 Series, P50 Pro, P40 Pro, P30 Pro, V40, V30 Series; SAMSUNG GALAXY Series, S8–S20 Series, Note 8–10 Series; and other Qi-compatible smartphones.

Note: Devices without built-in wireless charging require a Qi-standard wireless receiver to charge.

VI. Precautions

1. Do not over-squeeze or hit the device.
2. Do not use the wireless charger in environments with severe high temperature, humidity, or corrosive substances, as this may damage the device's circuit.
3. Do not place metal objects or magnetic cards between the phone and the charger — this may cause abnormal charging or damage.
4. Use a qualified power source; an insufficient or unstable power supply may cause slow or unstable charging.

Warning

- Do not place metal objects or magnetic cards on the charging area — this may damage the product or cause abnormal charging.
- Use only a qualified 5 V/3 A or 9 V/2 A power source to ensure safe and stable charging.
- Keep the product away from water, fire, and extreme temperatures.
- Do not disassemble the product. If damaged or malfunctioning, stop use and contact after-sales service.
- Slight warming of the device during charging is normal. If overheating occurs, stop charging immediately.
